

REMARKS

Applicant has submitted this response to the notice of non-compliant amendment of February 7, 2005. In this response, Applicant has only resubmitted the claims section of the previously filed amendment of November 19, 2004. The previously filed amendment was proper as to amendments made to the specification section, and therefore those amendments are not reiterated here. Furthermore, the Examiner should consider the remarks made in the previously filed amendment as to the patentability of the amended claims.

With specific respect to the notice of non-compliant amendment, Applicant has removed the erroneously inserted single brackets around the word "register" in claim 14 and has instead struck through this word, as Applicant wishes to remove it from this claim.

Respectfully Submitted,
